

TSP Student Information Sheet:

Name: LEE FUI YEE

Date: 06.10.2014

Major: SOFTWARE ENGINEERING

Instructor: MADAM NURFAUZA JALI

Number of College Credits: 3

Expected Graduation Date: YEAR 2016

Briefly describe your relevant experience and interests:

I have experience in database design and development. In the project of Database Concept and Design course, I had designed a database for a clinic. Besides that, I had designed a database for Morpheus which is the project for Web Based System Development course. One of my interests is reading. I like to read information from different areas and sources to widen my knowledge. In fact, to me, my analytical thinking and writing skill improved a lot through my interest.

Briefly describe your work on other team projects:

I had participated in a project of Software Engineering and Application Development course. I am the project leader for that project. That project is mainly about the process of designing an automated road tolling system. As a project leader, I do the research and distribute tasks to all my team members according to their abilities and strengths. Besides that, I always motivate my team members so that the project can be completed on time. Although I am the leader in the team, but I will also take in and consider of my team members' suggestions so that the quality of the project can be improved.

Briefly describe any leadership or management positions you have held (at work or in clubs/ organization):

I worked as a tuition teacher for primary school students before I study in University Malaysia Sarawak (UNIMAS). As a teacher, I am able to help the students in their studies and enhance my communication skill at the same time. Furthermore, my analytical skill is improved through the job of tuition teacher. This is because I have to keep on finding students' problems through the works that they have done. I also became more patient as I have to stay calm when I faced students with different attitudes and behaviours.

State your team preferences, if any:

I prefer to work with the group members that are responsible and able to work in a team. They have to put effort to produce high quality works. Besides than ensuring their own works can be completed, I hope they will also concern about the progress and problems of their team members so that helps can be provided at any time.

**List your class schedule and other times when you have scheduled activities such as work ,clubs, sports teams, etc.**

Time	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
800-900			Project Management - lecture		Project Management - lecture		
900-1000	Production & Technopreneurship - lecture		Software Engineering Lab - lecture				
1000-1100						Expert System - lecture	
1100-1200			Production & Technopreneurship - lecture	Project Management - lab			
1200-1300							
1300-1400							
1400-1500	Logic Programming - lecture			English for Professional Purposes - lecture	1430-1630 Software Engineering Lab - lab		
1500-1600							
1600-1700							
1700-1800						Sports	
1800-1900							

Rank from 1 (least) to 5 (most) your preferences for serving in the following team roles:					
Team Leader	1	2	③	4	5
Development Manager	1	2	3	④	5
Planning Manager	1	2	3	④	5
Quality/Process Manager	1	2	3	4	⑤
Support Manager	1	②	3	4	5
