[illegible]

Instructions:

- Date. The date you did some activity, like attending a lecture or writing a program.
- Start. The time you started the activity.
- Stop. The time you stopped the activity.
- Interruption. Any time lost due to interruptions.
- Delta time. The time spent on the activity, in minutes between the start and stop times less any interruptions.
- Activity. A descriptive name for the task.
- Comments. A more complete note on what you were doing, the type of interruption, or anything else that would be helpful when you analyze the time data.
